

NEW TECHNOLOGIES
IN EDUCATION

OFFER FOR
EXHIBITORS

BEOGRAD, BELEXPOCENTAR | 7–9 JUNE 2018

BELGRADE, BELEXPOCENTAR | 7–9 JUNE 2018

What have we prepared for 2018?

For the fifth year in a row, we are organising 'New Technologies in Education'. At this event, participants have an opportunity to discover possibilities of using new technologies in education, the ways in which they can modernise their work and implement innovations, as well as different approaches in motivating and engaging students in teaching in order to achieve better results in schools.

As in the previous years, the event will focus on using ICT in school education.

In 2018, we are planning to organise:

- two-day conference programme with over 100 lectures and workshops
- one-day ministry level policy discussion
- fair space with over 40 exhibitors
- policy round tables
- B2B side events.

Make sure you block off 7, 8 and 9 June for the event.

WE ARE EXPECTING

over

7,500

visits

more than

13,500

live streaming viewers

over

70

senior decision makers

over

40

ICT companies, publishers,
schools, universities and other
educational institutions

FAIR | MORE THAN 40 EXHIBITORS

In February 2017, more than 40 ICT companies, publishers, schools, universities and other educational institutions presented their state-of-the-art computer and audio-visual equipment, mobile devices, software, applications, digital textbooks and other products that may contribute to the increased quality of education.

NEW TECHNOLOGIES IN EDUCATION | FLOOR PLAN 2018

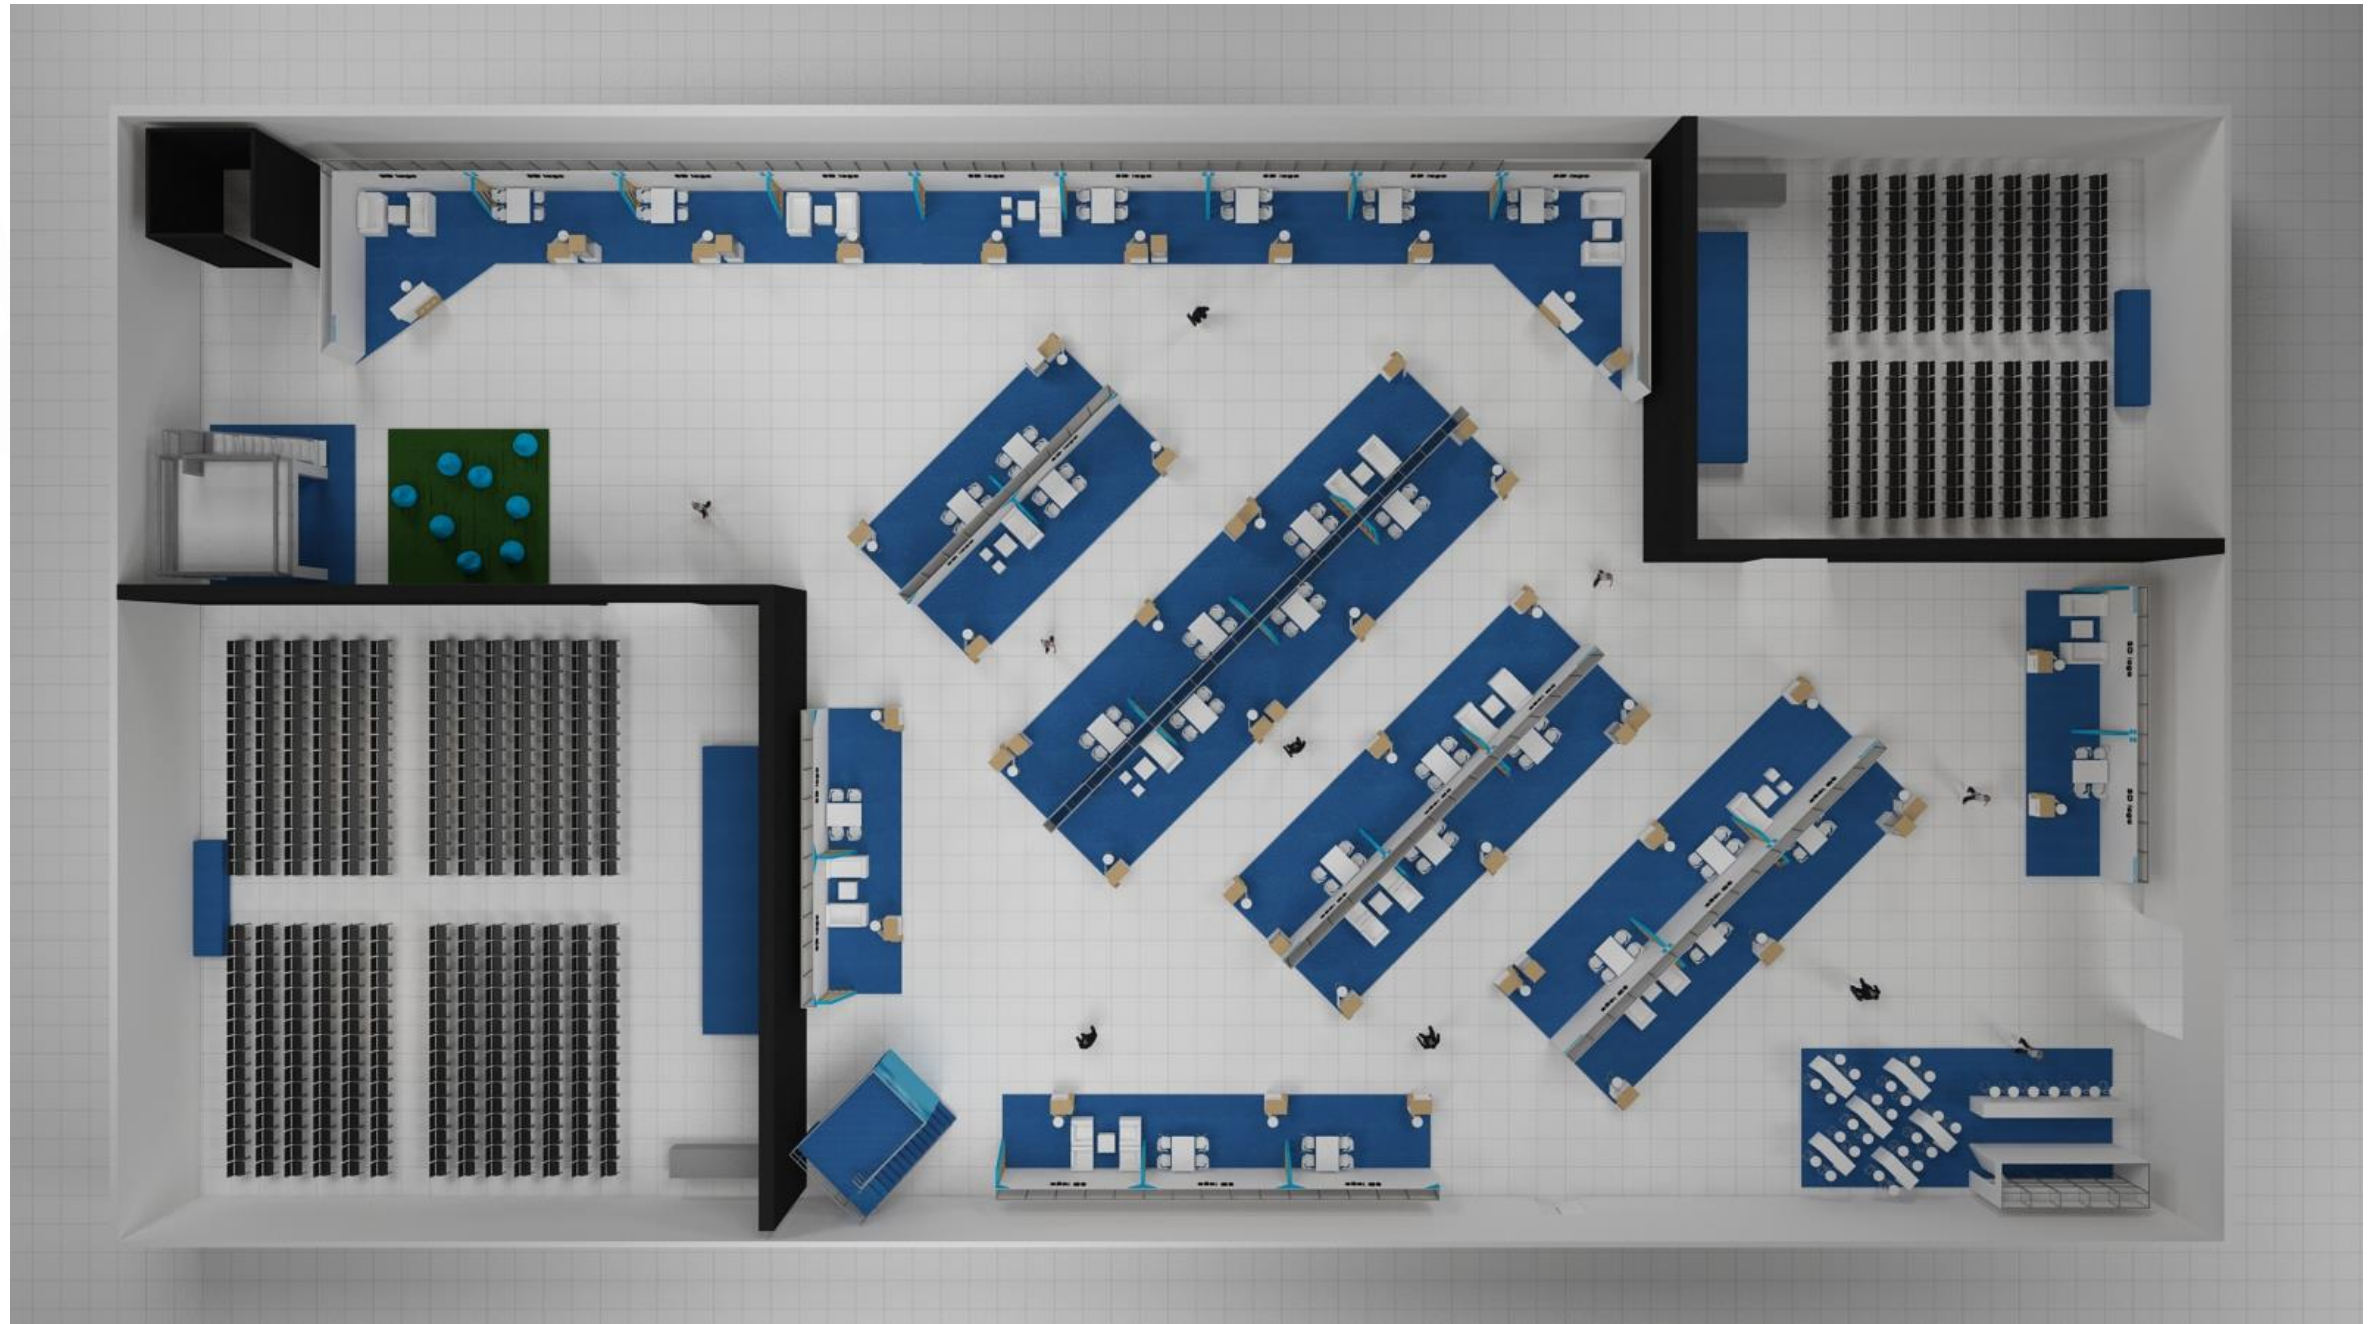

Fair and conference space

Belexpocenter is a fair space that has 2,500m² and is located in New Belgrade. The room is physically connected to the hotel "Holiday Inn". The space enables an excellent connection between the fair and the conference part of the program. This year, the two main conference halls are within the fair space, while workshops for fewer people will be organized at the Holiday Inn Hotel.
