EDEX EXPO in its 2nd edition, is the ultimate forum bringing together students, teachers, parents, schools, universities, career counselors, latest technology brands, banks, ministries, embassies and NGOs in one integrated, interactive and comprehensive education and orientation expo.

WHICH UNIVERSITY?

Whether the choice is Lebanon or to travel abroad to join the IVY league in the US, the UK body of colleges or the "Grandes Ecoles" in France or Europe, EDEX gives you the chance to connect with college representatives, understand better the offerings and learn how to apply. Schools will join the expo to present their new education programs and latest methods.

SCHOOLS & COLLEGES

KEY NOTE SPEAKERS & ORIENTATION

Orientation starts with information. Local and international speakers from the education and professional world will discuss new opportunities and the latest career paths that their universities and businesses provide to answer the... what? where? and how to get there? questions that are hard to find for a student, teacher or parent on their own.

TECHNOLOGY IN EDUCATION

Top computer and technology brands will showcase the latest education products and technologies centered around students, teachers, schools and universities future tech solutions. They will also offer the latest in home and family entertainment!
