

CLIMATE CHANGE

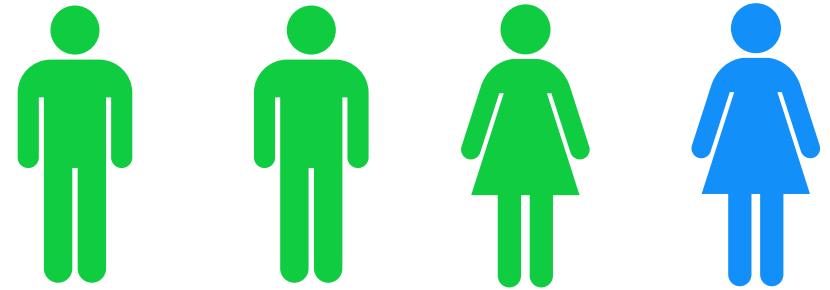

EDUCATION PROGRAMME FOR
PRIMARY & SECONDARY SCHOOLS

-
- Specialist E-Course for Teachers
 - Interactive Programme for Schools
 - TV Series: Climate Change Diaries

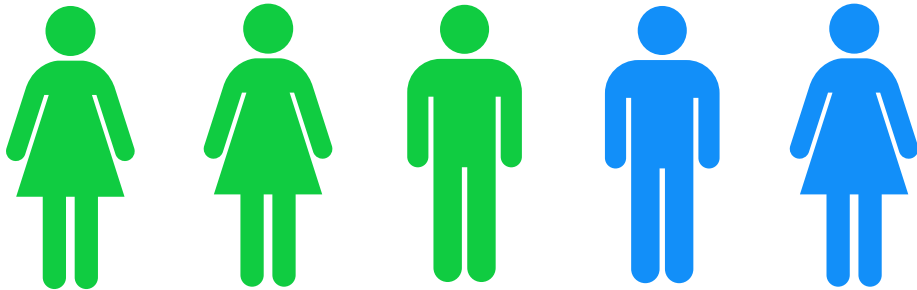

3 out of 4

UK citizens express some degree of concern (very or fairly worried) about Climate Change

3 out of 5

would like to see the UK as a global leader in tackling Climate Change

THIS GENERATION OF CHILDREN ARE THE
FIRST **CLIMATE CHANGE GENERATION**.
THEY ARE OUR FUTURE **POLICY MAKERS** AND
OUR CURRENT **MESSAGE CARRIERS**.

We need innovative and creative solutions to engage and educate our children.
Building a society that is resilient to environmental and climate hazards starts
with them, and it starts now.

EDUCATE

Teach children how to understand and live in a world affected by climate change, but without fear.

RAISE AWARENESS

Spread this message to as many organisations and individuals as possible using the UN system.

INSPIRE

Engage children and youth in changing societal attitudes and behaviours through their schools, families and communities.

THE PARTNERSHIP

Harwood Education has teamed up with the United Nations Institute for Training and Research, and Spring Films to produce and deliver an innovative Climate Change Education Programme for British primary and secondary schools.

Operations, Training
Delivery and Promotion

Learning Resources,
Methodology and
Accreditation

Harwood  Education

PROGRAMME COMPONENTS

Specialised Teacher Training Programme

Accreditation of selected teachers

Package of 50 Climate Change video lessons

Based on the successful 'Start Bee' teaching model

One Planet high end documentary TV series

Inspired by the UN Youth Climate Dialogues

Direct discussion between school children around the world

The concept of 'Climate Change Diaries'

PHASE 1

- Creating the programme package for schools
- Month 1-6

PHASE 2

- Creating the documentary series
- Month 6-10

PHASE 3

- Production of The Climate Change Diaries
- Month 12-18

SPONSORSHIP OPPORTUNITY

To further strengthen the Partnership we seek to also engage the private sector. We would welcome contributions from companies that wish to make a lasting and meaningful impact on climate change education in the UK and around the world.

Association with a tried and tested approach to engage schools and children, as well as the One UN Climate Change Learning Partnership

Recognition as global supporter for children's education and a pioneer of climate change literacy promotion

Access to major UN led global events on climate change, green economy and circular economy.
